CAREER OBJECTIVE

Full Stack Web Developer skilled in the MERN stack, Next.js and TypeScript, with hands-on experience building and deploying responsive web applications that include authentication and database integration. Seeking an entry-level developer role where I can contribute to real-world products, write clean and maintainable code, and keep growing in a collaborative team.

SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, daisyUI, HeroUI

Backend & Database: Node.js, Express.js, MongoDB, JWT, Better Auth (Email/Password, Google and GitHub OAuth)

Tools: Git, GitHub, Vercel, ESLint

Interpersonal: Teamwork, Problem Solving, Communication, Time Management, Adaptability

PROJECTS

Bazar Dor – Grocery Price Tracker for Bangladesh

A Bangla web app that helps people check everyday grocery prices across markets in Bangladesh, with daily price-change trends.

Live Demo | GitHub Repository

- Browse 33 everyday products (rice, vegetables, fish, meat, dairy, spices) with current prices
- Category-based browsing and market price comparison across 12 markets
- Secure sign-up and login with email/password, Google or GitHub
- Personal profile page where users can view and update their name

Tech: Next.js 16, React 19, Tailwind CSS 4, HeroUI, Better Auth, MongoDB

FitLog – Workout Library & Planner

A dark-themed gym companion where users explore workouts, add them to a daily plan or save them for later, and track totals.

Live Demo | GitHub Repository

- Responsive workout grid (3 columns desktop, 2 tablet, 1 mobile) with a detail page for each workout
- Add workouts to Today's Plan or Save for Later, with toast notifications
- My Plan dashboard with live Exercises, Minutes and Calories counters, plus sorting by duration, calories or rating
- Custom 404 page and loading states; plan data persisted with localStorage

Tech: Next.js (App Router), React, TypeScript, Tailwind CSS, daisyUI
